## About Us

Cygrus is a Cloud based Procurement Portal for Business.

Cygrus is redefining conventional procurement. We strongly believe trusted connection, collaboration and swiftness results in exponential growth of your business. Connect with thousands of buyers and sellers at one place making your procurement so easy.

Cygrus can greatly improve efficiency of procurement across all organizations irrespective of whether it is a buyer or seller. There is no need for Emails for procurement once you start using Cygrus. We have seen remarkable reduction of procurement cycle times of upto 75% with our customers.

Vendors now can send quotes within seconds to their enquiries and automatically generate invoices for orders. We need a more efficient system than the current available E-commerce systems for business and Cygrus is the answer to it. By using Cygrus, Customers will be able to gain more Vendors and Vendors will be able to acquire more customers, it is a win-win for all. Cygrus now makes it possible for businesses to procure anything around the globe with laser precision.
