Deep Furnaces
https://www.indiamart.com/deepfurnaces/

Manufacture customized furnaces valued for consistent results, energy efficient, heating elements, melting furnaces etc.
About Us

Established in 1989, Deep Furnaces is a renowned organization with its core strength in designing & manufacturing Industrial Furnaces & Industrial Ovens. We specialise in manufacturing Continuous & Batch type Industrial Furnaces for Sintering, Brazing, Carburising, Nitriding, Solutionising, Normalising, Iso-Thermal Annealing, Hardening, Tempering, Bright Annealing, Stress Relieving, Non-Ferrous Forging, Melting / Holding, Pre-Heating etc. We are serving various engineering industries and due to unmatched successfulness of our furnaces, we receive lot of repeated orders. We also undertake various furnace projects on TURN-KEY basis with assured operational results.

In addition to the wide range of Industrial Furnaces and Industrial Ovens like annealing furnaces, continuous conveyor type furnaces, heat treatment furnaces, melting / holding furnaces, ageing furnaces, heating ovens, batch type ovens, continuous ovens, our expertise is equally applied to the associated peripheral equipments. The application and implementation of our skills are demonstrated in our product solutions. To ensure a smoother flow in operations we continue to provide comprehensive support and advice to our valued customers. Apart from best technical know-how, significant human & financial resources, vast experience in handling the most diversified projects is where Deep Furnaces scores in the present tough and competitive market. From the initial concept to...

HEAT TREATMENT FURNACES

- Continuous Hardening, Normalising & Tempering Furnaces
- Pusher Type Heat Treatment Furnaces
- Roller Hearth Type Furnaces
- Air Circulation Furnaces
INDUSTRIAL TREATMENT FURNACES

- Stress Relieving Furnaces for Pressure Vessels
- Special Purpose Furnaces
- Drop Bottom Type Solutionising / Ageing Furnaces
OTHER PRODUCTS:

- Retort Type Carburising / Nitriding Furnaces
- Melting / Holding Furnaces
- Shaker Hearth type Hardening Furnaces
- Tube Annealing Furnace
