About Us

With a belief that technology and business go hand in hand, we, Del Pd Pumps & Gears (P) Ltd. embarked on the engineering industry with a mission to offer the best to its customers. Striving to attain perfection as well as customer satisfaction, the company was established in the year 1981. We are counted amongst one of the leading manufacturers, exporters, and suppliers of a wide range of Pumps and allied products for all viscous and semi-viscous liquid applications. We are offering Rotary Gear Pumps, Oil Pumps, Screw Gear Pumps, Twin Gear Pumps, Triple Twin Gear Pumps, Loading-Unloading Fuel Oil Skids, Force Lubrication Systems, etc. In addition, we also provide customization on our range, as per the technical specifications given by customers. Geared with features such as low maintenance, user-friendliness, high efficiency, and durability, our products have earned wide appreciation from clients all over the globe. As a matter of fact, we are considered as an prominent rotary positive displacement pump manufacturer in the Indian sub continent. We follow the brick & mortar economy to produce our range of products. We have full knowledge about typical pumping problems that normally occur while handling viscous liquids. Hence, we are also engaged as a service provider offering guidance in selecting, installing and using our range of Pumps. We also provide inspection by third party like EIL, DNV, BVQL, PDIL, IRS, Lloyd, CEIL, NTPC, BHEL, and more, as per our clients...
