About Us

Delight Polymers Private Limited was established in **1994**. We are a reputed manufacturer of a wide range of plastic components and assemblies. Our clients include some of the world's top auto companies, electronics industries, industrial goods industries and manufacturers of household goods. Delight Polymers Private Limited is equipped with a state-of-the-art manufacturing facility with the latest machinery and quality raw material. Our research and development team works around the clock to provide lasting and sustainable solutions to our manufacturing unit which in turn produces the best products in the market. The list of products include **plastic assemblies for industrial purposes** and **plastic assemblies for electronics, and commodity plastics**. We also supply **molded plastic household components, plastic injection moulds, cold storage rooms, shelters for the telecom industry and insulation for trucks**. Our in-house teams have created such superior products that our customer satisfaction levels are always on the rise. Additionally, the quality control processes use stringent measures to ensure all our manufacturing processes as well as the products are of consistently superior quality. **Mr. Shyamal Baksi**, our esteemed CEO has diligently worked at increasing the standard of our products and the success of our company is in large part attributed to his knowledge and expertise.
