Deltafiia Farmers Producer Company Limited

<https://www.indiamart.com/deltafiia-farmers-producer/>

Established in year **2018**, “**Deltafiia Farmers Producer Company Limited**” is one of the leading wholesalers of **Fresh Vegetables, Fresh Sweet Corn** etc. We offer these to our customers at market leading rates.

About Us

Deltafiia Agromart is a start-up driven by professionals with an educational background in agriculture. Our job is providing farmers all the resources that are required right from sowing till harvesting, guiding and educating them with proper agricultural knowledge so that our farmers can produce the finest quality of farm-produce.

We are then involved in packaging, marketing and branding of their farm-produces and making them available at local, national and international market places.

By using various innovative technologies, we aim at reducing farmers production cost and also increasing productivity and quality of the produce, which makes sure that they get way better returns. Our products include high-quality fresh vegetables and fruits, prominent crops and processed green-groceries. We operate at retail, wholesale and export level.

Along with the regular farm-produce, we also make available home-made products and eatables that come from individuals or Mahila Bachat Gat or Farmer's Producer Companies, at our platform and make it available at national and international markets.

By ensuring farmers financial progress along with customers satisfaction for the value they pay by always serving them with excellent quality products, we are blessed and happy to be serving you all now and hopefully forever.
