About Us

When you think design, think Design Farm. And true to its name, the studio is nestled deep the Western Ghats and sits in a lush green farm that grows coffee, cardamom, oranges, jackfruit, pepper, wild fruits etc.

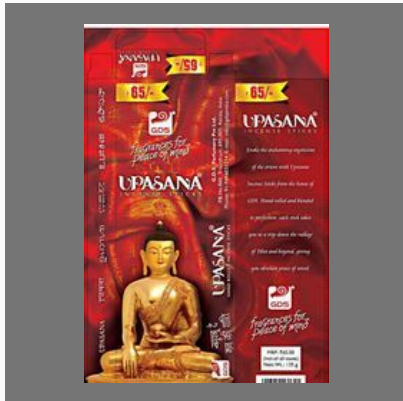

Prior to starting Design Farm, I worked as a senior art director with Synopsis Design Consultants, a well-known design company in Bangalore. After 6 years of working in Bangalore, I felt a need to get back to my hometown and start something on my own. This was how Design Farm began. Design Farm aims to provide a complete design solution for clients be it online or print creatives, specializing in logo design, branding, identity, packaging, print design, photography and web design. It uses the resources of highly experienced copywriters, photographers, illustrators, filmmakers, animators and user interface engineers to work on projects.
