## About Us

Dev Minerals was established in 2009. We want to supply the best quality at satisfaction point to our client as per their requirements. We are engaged in supply from a long time & now have started self manufacturing units. We have well maintained quality control system, confidential lab report, storage capacity, self mining selected purchasing from market labor management processing with client consulting and thus continuously. We maintain ourselves in competitive market with innovative view and improved our technique/method.
