<https://www.indiamart.com/devishree-electricals/>

Manufacturer of bus duct, low tension switch gear panel etc. Also offering electrical contracting services.

## About Us

Devishree Electricals is a professional electrical contracting company, has executed several E.H.V and M.V/ L.V installations for a wide spectrum of industries for more than three decades. We are super "A" grade electrical license holder (ESA 117) issued by the Electrical Licensing Board of the Government of Tamilnadu. We also hold electrical license (6/CA/96) issued by the Electrical Licensing Board of the Government of Pondicherry.

Devishree Electricals was established in 1971 as a partnership company based at Coimbatore being headed by our chief executive engineer Mr. M. Nagarajan, an electrical engineer by profession. He has done his B.E (Hons) and M.sc (Engg) at PSG Tech, a premier institution in South India, which has gained recognition worldwide.

With more than 20 years of excellent performance at G E C and N T C behind him, he has managed to spread our corporate wings into various fields like turnkey electrical contracting projects, manufacturing of low tension switchgear panels, energy saving system, maintenance of total plant electrical systems etc., and keep us soaring high.

At present Devishree Electricals has 6 branches over Tamilnadu and Pondicherry, as a result we have an entire service network in place in South India, which caters to all industrial needs.

An excellent highly professional dedicated team of senior managers, project engineers and other technical staffs is our strongest asset,...
