## About Us

Digisys Media Network is a digital media company dealing with digital assets, audio/video production, publishing and distribution. The organization conducts business through its digital media and technology brands, operating worldwide. DMN's competitiveness as a media company is in its technology platform that not only creates possibilities for the growth of the network itself but also provides web solutions for several businesses to grow their brands online. Learn how to design professional websites with minimum coding skills, using content management systems. Get the best out of DMN's live projects and learn the web operations for running an organization and choosing the suitable PHP frameworks for achieving the targeted web solutions
