About Us

Founded in 1994, Digitek has rooted itself in providing high quality software talents and an unwavering commitment to quality service delivery. These twin strengths enable us to smoothly adapt to the rapid evolution of technology while maintaining constant focus on the changing business needs of our clients.In the year 1998 Digitek Software, Inc. also established the Offshore Development Center in Mumbai, India under the name ***Digitek Software Pvt. Ltd***. Today Digitek Software in India provides a state-of-the-art software development center managed and populated by some of the best IT professionals. From this center Digitek has been providing off-shore development services for last several years to our various clients.For successfully integrating offshore capabilities into our service offerings, Digitek pioneered a global delivery model that is transparent, flexible and seamless. Onsite project managers work hand-in-hand with our clients to ensure the successful delivery of offsite and offshore projects.
