The enterprise was conceived, established and gradually developed by our managing director mr. Siva rama prasad kamineni into a major establishment, achieving the accomplishment being most experienced structural engineer in south india today.

About Us

The enterprise was conceived, established and gradually developed by our managing director mr. Siva rama prasad kamineni into a major establishment, achieving the accomplishment of being most experienced structural engineer in south india today. He received his postgraduate degree in structural engineering from siddhartha engineering college at kanuru, nagarjuna university in 19xx.

He started his career as a engineer at his father's construction company and managed several constructions from 1987 to 1990.

He started structural engineering consultancy at bellary (karnataka) in 1991. On his return to his home town, vijayawada in 1994, he set up his firm " ", architectural& structural engineering consultancy and since then the practice has successfully bloomed into a house of integrated and comprehensive design services. The practices' portfolio includes projects ranging from health care and hospitality to research laboratories, auditoria design to recreational, educational and residential architecture.
