We are designers and manufacturers of heavy lifting equipment, hydraulic jacking systems, mechanised structures and steel bridges. We also design and supply one-off systems to suit particular project requirements.
About Us

We are designers and manufacturers of heavy lifting equipment, hydraulic jacking systems, mechanised structures and steel bridges. To compliment our product range we also offer construction engineering and site supervision services. Our role on most projects is to develop solutions to construction problems, fully engineer these solutions and then to work with our customers to carry out the operations on site. We are happy to offer any combination of erection engineering, equipment supply / rental and site supervision services to suit the needs of each project.
