We are engaged in manufacturing, exporting and supplying a wide range of Solid Waste Treatment Plants, Drinking and Waste Water Treatment Plants. We also undertake installation and commissioning projects for our clients.

## About Us

Established in the year 2001, we **Dowac Systems and Projects India Pvt Ltd** are an ISO 9001-2000 certified organization, engaged in manufacturing, exporting and supplying a wide range of **Solid Waste Treatment Plants, Drinking and Waste Water Treatment Plants**. Our range encompasses water treatment systems, water filtration systems, water purification systems and water treatment system associated chemicals. In addition to these water treatment plants, we also offer chemical dosing system and screen filters to our clients. We manufacture these water treatment plants, we use high grade raw material that is procured from the reliable vendors of the market.

These precision engineered water treatment plants are extensively used in power & energy, petrochemical and pharmaceutical industries. With our 13 years of process experience, we have successfully established ourselves as an SSI unit, engaged in undertaking several turnkey projects for our clients related to designing, assembling, installation and commissioning of pressure Vessels (required for filtration process). We are also engaged in providing operational training, consultancy and OEM services to our clients. Our entire range is customized as per the specifications of our clients and is packed in tamper proof packing material such as wooden and carton boxes that ensure safe transit.

We are able to achieve utmost client satisfaction under the proficient leadership of our...
