## About Us

We introduce ourselves as Private, Crime and Civil investigation agency providing impeccable services to companies and individuals for the past 15 years with advanced investigation techniques. Our modus operandi will be entirely different from any other agency and we are the only detective agency to have our own forensic laboratory in India. We have a team of trained, qualified, experienced professionals to carryout assignments.

Our Directors themselves are graduated in the field of Criminology and Forensic Science, so they guide our staffs whenever the necessity arises. We maintain high integrity & confidentiality with our clients and 100% secrecy is maintained and our client's identity is not exposed on any circumstances. Our services are accurate, absolute and prompt. We would also like to extend our prompt services not only to our clients but also to the companies and individual who are not aware of our services.
