

# Easy Pack

<https://www.indiamart.com/easypack-nagpur/>

Providing data entry services, human resource services etc.

## About Us

Easypack started off as customized software development partner for many domestic companies since its inception in the year 1986. In a very short span, it made its presence felt in diverse sectors such as Thermal Power Stations, Manufacturing Units, Traders, Hospitals, Doctors, Hotels & Restaurants, Advertising agencies, Newspaper and many more. In the year 1998, Easypack ventured into service sector in overseas market. Every passing year brought more and more work and soon Easypack carved a niche for itself in Oil Well Industry. Today, Easypack is globally recognized business service provider. At this stage we are well established to take on more and more challenging assignments as we have the right blend of skill and experience. With our focus on quality service, we have become preferred partner to some major organizations in oil, legal and financial services sectors in the United States. We are located, in the heart of India (at Nagpur). This city has tremendous potential as it is very strategically located with very good road, rail and air connectivity to all the metro cities. There are number of good colleges offering professional courses and thus taking care of manpower requirements of local industries. Our state-of-the-art infrastructure and expertise in IT enabled services, contributes significantly to our clients' business goals.
