About Us

We are a full service, creatively driven advertising agency based in Kolkata, India. We give our clients exactly what they look for. Fresh ideas that cut through the clutter. On time and on budget. We pride ourselves on quick understanding of briefs, fast production and accurate implementation. In today's ruthlessly competitive market nothing matters more than 'results'. So we look closely at your business and goals. Then we figure out rational, innovative and response-driven work. And while doing that we remain focused on building brands, driving profit and increasing return on investment. Without creating any creative compromise. As a team, we have designed and deployed campaigns in India, USA, Bangladesh and Zambia for b2b & b2c companies and brands. Each of our clients varies in terms of budget and objective. But they all share one common platform - they got the results they were looking for.
