About Us

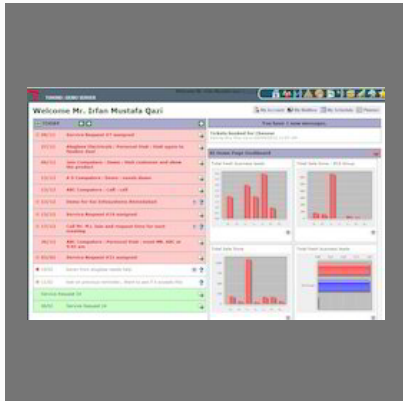

E- Centric Consultancy Services Private Limited was established in the year 2009. We are the Leading Manufacturer, Trader, Supplier, Exporter, Distributor and Service Provider of ERP Solutions, Recruitment Services, Development Services, Management Services, Consultancy Services, Accounting & Database Services. E-Centric is a provider of ERP, Software, and Man Power (HR) solutions. We develop business solutions and custom built applications for our customers mainly standalone applications, Provide Man power for varied industries in all verticals. ECS was started in 2004 as a proprietorship primarily to provide a banner for freelance projects. Till 2009 it was dormant. In June 2009 it was incorporated as a private limited company in the state of Karnataka, Republic of India.

We formally started our business on July 16, 2009 from a small room in BTM Layout. For first year our main business was limited to development of software and web based solutions on turnkey project basis and maintenance of software, servers, applications and databases. By late 2010 we were serving customers in India, Malaysia and Saudi Arabia. In October 2010 we started developing our own ERP "TUHUND" as a customizable product. In October 2011 we ventured into manpower recruitment to fill in the void. Though there are tens of thousands of placement consultancies in India, most of them limit their work to supply of resumes matching the requirements specified by customers. It is a well known fact...
