Edge Electrics Private Limited

<https://www.indiamart.com/edge-technologies/>

We have emerged as a renowned **Service Provider, Distributor, Manufacturer, Exporter, Trader, Association, Importer, Supplier, Wholesaler and Retailer** of technically advanced electrical equipment.

About Us

Established in the year **1990**, we, at “**Edge Technologies**”, are known as one of the reckoned manufacturer and suppliers of **Electrical Equipment**. Our range has earned huge accolades from clients because of its salient features like unmatched performance, easy installation, user-friendliness, and long service life. Designed and fabricated in strict compliance with set electrical industry standards, our range is highly acclaimed by clients. Further, we have also achieved an enviable position in the field of rendering turnkey solutions related to **Electrical Contracting** in a timely and cost-effective manner. Capitalizing on its state-of-the-art infrastructure and dedicated approach towards improvisation, we have achieved a remarkable position of repute in providing complete power solutions. We deal in offering a huge variety of solutions ranging from power consumption/compensation up to offsetting harmful effects of new age electrical polluting devices. Thus, we are able to develop business relationships with few of the best product manufacturers around the world. Under the brilliant guidance of “**Mr. Sajjad Ahmed**”, our organization proficiently crossed all the hurdles came in to the way and become a formidable name in this competitive industry. His keen business insight, vast industry experience and farsightedness have enabled us to retain our prominence by efficiently catering to the...
