About Us

elan Technology is a leading provider of on-site and offshore Web Design and development services to the clients in USA, Europe and around the globe. At eLanTech, we deliver custom application programming and web services for end customers as well as provide offshore software outsourcing services for other IT companies. Our goal is to supply our customers with excellent services, web sites, designs and products, based on our competence and experience. Our company is in conformity with high quality standards on every stage of the development process from the conceptual design to the product release. We follow global standards of software development processes. We are equipped with all necessary communication facilities which allow us to be in touch with our customers 24 hours day. Our experience in providing successful software services, consultancy and e-Business solutions for different industries/domains helps us create solutions working trouble free from the outset. eLan Team expertise guarantees quality, competent and rapid execution of any projects & from small to complex software projects.
