# Elecon Engineering Company Limited

<https://www.indiamart.com/elecon-engineering-company-ltd-anand/>

Manufacturer and wholesaler of helical and bevel helical gear boxes, cooling tower gear boxes, dual tandem gear boxes etc.

## About Us

Established in 1951, Elecon Engineering Company Ltd of Vallabh Vidyanagar, Gujarat, India, pioneered the manufacture of material handling equipment in India. In more than five decades, Elecon has designed and implemented several landmark projects in India as well as abroad. From a modest start of design and manufacture of Elevators and Conveyors from which incidently, the company derives its corporate identity. viz. "Elecon". It has grown over the years to be known as a pioneer of the concept of mechanised way of Bulk Material Handling Equipment in India. During the span of more than 4 decades, Elecon has encompassed all the major core sectors through its supplies of highly sophisticated equipment bearing ample testimony of the symbolic mark of Elecon's unbeatable technology. Elecon has thus, made its presence felt through consistent and satisfactory performance of its equipment in such core sectors as fertilizer, cement, coal/power generation, chemical, steel plant and port mechanisation etc., across the country. Elecon is the first company in India to have manufactured sophisticated equipment for Bulk Material Handling. Its product range includes design, engineering, manufacture, supply, erection and commission of:

- Wagon tippers
- Bucket wheel stacker/reclaimers
- Barrel-type blender reclaimers
- Fertilizer reclaiming scrapers
- Limestone pre-homegenizing and blending plants
- Single and twin bucket wheel bridge-type...
