About Us

Established in the year 2001, we Electrical Engineering & Projects Company are counted amongst the prominent suppliers of Electrical Goods. These include Electrical Goods, Cable, Wire, Bulb, etc. We ensure that we deliver unmatched quality to all our products. We can supply these products in all over India as per the clients requirement. We put our whole efforts to provide best quality products. All these products are in compliance with ISO 9001 standards, which ensures higher efficiency and effectiveness of the electronic products. Most importantly, we also offer complete technical data solutions and design specifications in the context of the aforementioned products.

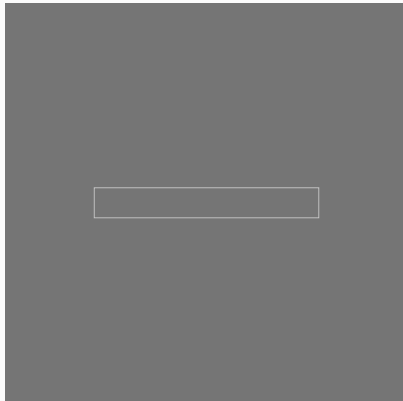

Being a customer centric organization, we make sure to work as per the clients drawn specifications. We consider it is our duty to deliver the best lot of products within the stipulated period that meets the specifications of international quality standards. The organization strongly encourages feedback from clients as it backs us to alter certain business activities as per the requirement of customers.
