Established in 2014, **Electrical Science Solutions** is the leading **Service Provider** of **Electric Routine Testing Service, Electric Panel Maintenance Service, ARC Flash Study Service** and **much more.**

## About Us

Established in 2014, **Electrical Science Solutions** is the leading **Service Provider** of **Electric Routine Testing Service, Electric Panel Maintenance Service, Switchgear Maintenance Service, ARC Flash Study Service and much more**. It provides service to understand electrical energy utilization and recommendations for its Safe, Reliable & Optimum use. As today India is one of the fastest growing economy, all latest innovations finding their way to capitalize the Indian market, this lead to the different pattern of electrical power utilization than conventional and hence expected to have the different drawbacks of this utilization in terms of power quality issues. Our prime focus is on solving the existing problem and ensure measures are taken for preventing such problems in future. Electrical Science Solutions is a group of science qualified and experienced technocrats in a field of electrical. The analyst team is equipped with high-end power monitoring analyzers, measuring equipment, and data analysis software. We have achieved all the organizational targets in the best possible manner under the supervision of our mentor, **Mr. Prasad Gore** ( Proprietor ).
