About Us

Elite Children's Eye Hospital & Squint Centre is our attempt to provide high quality eye care with state of art technology exclusively for children and adult patients with squint and other eye movement disorders. After its inception in 2009, the hospital has already established itself as a center-of-excellence where children and adult patients with squint receive excellent patient care, diagnostic services and surgical facilities. It has earned a reputation of providing high quality, affordable and compassionate eye care to its patients. What makes us more proud is the fact that the hospital is the first and only one of its kind in the city of Surat and whole South Gujarat. We are also a highly referred centre for Pediatric Ophthalmology and Adult Strabismus from Gujarat and all over the country.
