About Us

We feel great pleasure in introducing our company EMMAAR Enterprises as one of the most stably-footed company in the field of cold-chain equipment. Manufacturing and popularizing the complete product range through its brand name – we at EMMAAR Enterprises have developed and formulated our products – ice pads, pouches and various other related commodities to the best industry standards, based totally on continuous interaction with the key marketers and our valued customers.

After the product's existence in the market for almost a decade, we at EMMAAR Enterprises have succeeded in developing our chilling pouches and pads, thus formulating the state of the art refrigerant to give the best possible results to our patrons to the utmost standards and conditions. In the present world where technology is advancing at a lightning pace, we thrive to give a temperature controlled logistic solution so that our customers can focus on their core competencies without having to worry about the temperature-related problems.

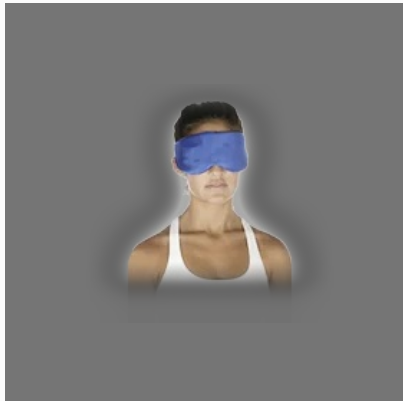

Based on innovation, continuous improvement and adaptation to the ever-changing market, has carved a niche in the field of temperature-sensitive logistic solutions in all major spheres – the frozen food industry, the pharmaceutical industry and other perishable material industry. We at EMMAAR Enterprises endeavor to add value to our customers' business value chain by offering world class logistic equipment so as to...
