We are engaged in manufacturing and exporting a wide variety of Industrial Magnetic Equipment. Our offerings are highly regarded for being customer oriented and offering exceptional functionality and long service life.

## About Us

Commenced in **1986**, we, **Erich Magnetic**, are among the prominent manufacturers and exporters of a wide gamut of industrial magnetic products. We are highly regarded for offering products that have proved to be unsurpassable in terms of quality and functionality. We have garnered the admiration of our peers and customers alike and are hailed as one of the industry leaders. Our comprehensive product range is inclusive of lifting magnets, magnetic components, and magnetic barrel grids.

We have, with the application of keen sense and cutting edge technology, created products that are in compliance with the prevailing international standards. Our offerings are unique and offer the customers optimum satisfaction. We undertake detailed analysis of customer needs and specifications before designing our products so as to fulfill their requirements in the best possible manner. We take several steps to ensure that our products rank high on quality and other essential parameters.

We are a proprietorship firm established under the esteemed guidance of **Mr. Saravjit Singh**. Since our inception, we have primarily focused upon attaining maximum customer satisfaction in the most ethical manner. We are highly regarded for indulging in ethical business dealings only, owing to which, we are considered extremely trustworthy by the entire industry.
