We are one of the **prominent traders of agricultural products** in the global market. Our dedicated team provides **quality and hygienic food products** procured from reliable cultivators and vendors across various states from India.

About Us

Eswar Exports is though incepted recently in the year 2008 but has proved to be one of the budding suppliers of agricultural products at global level. From very beginning we abide by the quality policy fixed by our dedicated team of food experts. We never take quality prospect for granted rather we give first priority to quality assurance at cultivators' end before procuring to our warehouse. Wide range of agricultural products, sourced from these trustworthy cultivators includes yellow corn, onions and other agro products.

Our mentor **Mr. Eswaren** is new to this sector, previously dealing in the field of the cement but he has done excellent work. He has left ample space of improvement and we have taken it to newer height in the agricultural sector under his guidance. We always endeavor to serve our customers with maximum pleasure.
