## About Us

Now a days it sector is the fastest growing technology in the world, We are surrounded by the electronic equipments like cellphone Computer & Networking, Natrurally we have five basic needs for living like Sun, Air, Fire, Land and Sky but it sector electronics hits in all this the most. So now a days the uses of Mobile phone/Computer/ Laptop and Networking is one of the fastest growing sectors in the world. And for business also IT hits the best in the markets. And as you know that the users of Mobile phones and Computers are increasing day by day and in this We also need trained technicias for maintenance and repairing but stin in this market there is very less people for maintenance and repairing becouse in india is not so common to have these kind of courses, these courses are still out of range of common people. So to full fill this need "E-Tech Academy for advanced technologies (P) Ltd." Has been /was establized with a motive to provide best and advanced technical education in the hand of common people and affordable for all.

E-Tech Academy has been /was established with a motive to rootout unemployment from India, We have a vision to people best & advacned technical education across the world to help nations not only native place. E-Tech Academy is the only institution that has it's our works for rare lcs & component research and development research and development (R & D) department this department subsitutions. It also...
