<https://www.indiamart.com/etechpower/>

We, E-Tech Power Engineers, are engaged in manufacturing & wholesaling the Control Panels & Desks, Junction Boxes and Allied Electrical Products. In addition to this, we are in Engineering Services and undertake Electrical Turnkey Project.

## About Us

Established in the year **2010**, we, “**E-Tech Power Engineers**” are widely appreciated for **manufacturing** and **wholesaling** a comprehensive array of **Control Panels & Desks, Junction Boxes and Allied Electrical Products**. Patrons widely appreciate the offered electrical products for their longer service life, precise design, robust construction, easy usage, optimum functioning and less maintenance. With an aim to ensure the presence of aforementioned features, we manufacture these electrical products by using high grade raw material, modern machinery and latest technology. Moreover, we keep in mind the established quality standards while manufacturing these electrical products.

The demand of provided control panels is rising as these are quality tested by CPRI, Bhopal for IP protection, short circuit and temperature rise. To carry out our all the processes without any hassle, we have appointed experienced and qualified engineers, designers and draft-persons. These professionals lay emphasis on acquiring higher level of patron satisfaction. For the same, they design and develop the products as per their given specifications. In addition to this, our professionals help rendering **Engineering Services** to patrons. We custom made these electrical products up to a rating of 6000 A. We have installed modern machinery and CAD software at our infrastructure so as to carry out all processed in a free flow manner. Backed by...
