About Us

Eureka Forbes Limited was established in the year of 1982. We are a leading Manufacturer, Wholesaler, Supplier of Water Purifier, Vacuum Cleaner, Dr. Aquaguard Water Purifiers, etc. The customer has always been at the centre of our business and we are constantly expanding our ways of reaching out to them to understand their needs and aspirations. Passion for delivering with excellence has always motivated us to come up with high quality products to ensure satisfaction and the well being of the families.

In a similar endeavor, we introduced direct selling in India and pioneered the water and air purification systems, vacuum cleaners and security systems. We have since added channels to enhance our reach and respond effectively to the needs of our customers. Our Consumer Channel was established to effectively respond to the expectations of customers looking for the means to safer and healthier living. It offers them a range of water purification and home cleaning products through a network that has rapidly spread to encompass over 15,000 dealers across over 1,800 cities and towns across India.
