

Excellent Power Controls

<https://www.indiamart.com/excellentpowercontrols/>

We manufacture, supply & export various types of HT and LT Panels & S/W Divisions. Further, we provide after sales assistance including operational & installation training, user manual, on-site support & turnkey projects.

About Us

We, “Excellent Power Controls”, are engaged in the industry since the year 2008. Our outstanding process knowledge has enabled us in manufacturing, supplying and exporting a variant range of HT & LT Panels and Software Divisions. Furthermore, we offer after sales solutions for installation, operation and on-site commissioning of the products & systems to our esteemed clients. Moreover, we also undertake turnkey projects for them. Our high quality range of products is widely accepted due to its durability, reliability, cost-effectiveness, easy installation, low maintenance and superior functioning. Also, we have gained huge appreciation from our clients for prompt services, excellent training and sound business policies.

With the help of modern machinery and equipment installed inside our infrastructure area, we have developed a prolific range of industrial products. In addition to this, our diligent team of engineers takes care of the installation commissioning services at the customers' sites. Apart from this, we give utmost importance to the quality of our products and services. Several strict regulations and norms are followed by us to deliver a flawless quality of products to our prestigious clients. These measures and timely delivery of products & services have helped us garner vast client base across Indian Subcontinent. The list of our valued clientele includes Embassy Groups, BOSCH Rexroth, Kalyani Steels, Global Tech...
