Offering search engine optimization services, marketing consultancy services etc.

## About Us

Exemplar e-solutions is a leading web design and website application development company based in New Delhi, India. Established in the year 2004 in order to provide customized web application development, software development and data processing solutions to businesses and to act as a Offshore Development Center for overseas development firms.

Exemplar e-solutions was founded to bring businesses into the e-world by improving efficiency and online effectiveness. We are different from many web service providers who are rigid, inflexible, unhelpful and believe in instant gain, leaving their customers in the dark.

We are proud of our reputation, offering a friendly and flexible approach which ensures long-term partnerships with our clients. We empower our clients, offering them direct control over their projects and supporting them every step of the way. We are Internet Engineers and have a team of skilled designers and developers, with a positive attitude for delivering solutions with an edge, and who have track record of sustained success and quality.

We have an unmatched record of completing almost all our projects on deadlines and budgets. Long-term strategic relationships with clients is our primary business focus and the success of this outlook is evident in the continuous stream of work that we execute for our regular clients who are satisfied with our invariable emphasis on professionalism in service.
