About Us

To foster the same idea FACULTY OF ENGINEERING TECHNOLOGY AND RESEARCH (FETR) is established. It is one more progressive step of Sardar Vallabhbhai Patel Education society towards conferring quality education to knowledge-thirsty learners. The institute is situated near Isroli-Afwa of Bardoli taluka of Surat District, about four kms away from the Bardoli town. The institute is surrounded by the panorama of vivifying landscapes of vast Sardar campus. Far from the havoc and pollution of the city, the institute gets the benefits of the completely peaceful, serene and nature-friendly environment. This creates a perfectly conducive atmosphere where learners can have a life-enriching experience of technical education. The institute has envisioned to sharpen the multi-faceted talents of the learners and thus to make them sound technocrats who are competent to embark on a new era of science and technology in the global background. It is also the prime responsibility of the institute to harness students with the values of harmony and humanity for the betterment of the society. To fulfill this vision the institute provides students all possible infrastructure and educational facilities such as neat and airy classrooms, tutorial rooms, fully equipped laboratories, language lab to empower them in communicative English, computer centre, library, workshop, playground and canteen.
