

# Filtech Corporation

<https://www.indiamart.com/filtechcorporation/>

We are into manufacturing and supplying exclusive range of Non Woven and Woven Fabrics like Mono filament Fabrics, Spun Fabrics and many more. We conduct stringent testing to ensure that the range offered is free from flaw.

## About Us

**Filtech Corporation** is the **Hyderabad, Telangana** based organization that started its business operations in the millennium year of **2005**. Since our inception, we have come a long way and have emerged as one of the trusted and leading **manufacturers and trader** of widespread array of finest quality **Filter Bag, Anti Static Filter Cloth, ESD Fabric** and **manu more**. Owing to hard work and support of **Manager, Mr. Chetan Dashrath**, we have reached the pinnacle of growth and towering success within such short time span. Our exclusive range of Non woven as well as Woven Fabrics are cherished throughout the markets of the nation for their wrinkle free, anti-bacterial, regular resin finish, expansive applications, lightweight, lint free, comfortable, high tensile strength, stretch-ability, strong laminates, high elasticity, low density and excellent toughness. To develop our range, we make use of superior quality polyester, cotton, rayon and nylon that is sourced in best of the form from trusted and reliable sources. Utilization of modernized cutting, weaving, stitching machines ensures that the range of Non Woven as well as Woven Fabrics are in compliance with existing market trends. Production process isn't complete until and unless supervised by our quality monitoring experts. These professionals have deployed stringent checks that are based on the basis of strict quality monitoring parameters,...
