About Us

A Perfect Solution for a Clean Air

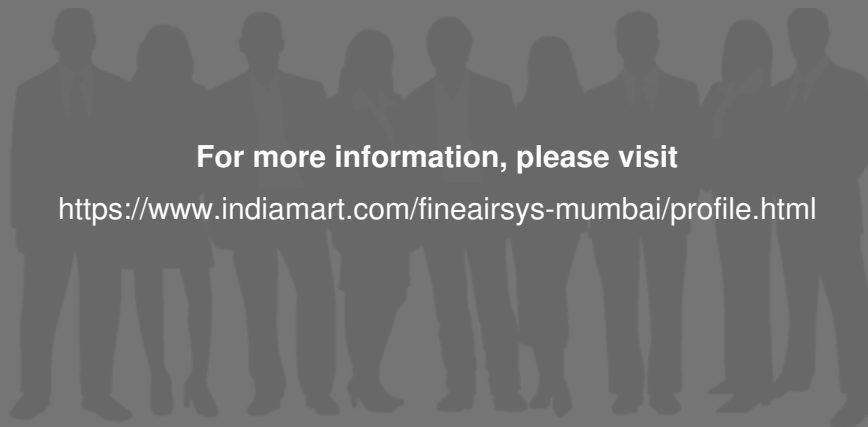

Fine Airsys wants to capture filtration industry having its factory at Vasai. Ordinary air normally considered to be reasonably clean and pure will in general obtain a great deal of contaminations and particulars. i.e. dust, ash, pollen and bacteria. Fine Airsys as the name suggest was created by team of dedicated and pro-active individuals, with intense experience in the field of clean air techniques. Fine Airsys is into the market of manufacturing entire range of **Cleanroom Air Filter, Operation Theater Modules, Biosafety Cabinet, Laminar Air Flow Systems, Air Purifier Filters etc** to render world-class clean rooms services to the pharma, health care, micro electronics, space research industries and food industry. We also provide services for HEPA Integrity Test (DOP) Air velocity measurements (hot wire type) and particle count monitoring as and when required by clients at factory or site.

We also manufacture Clean Air Equipment in SS/CRCA powder coated construction generally used for classified areas and class 100 booths as follows-

- Laminar Air Flows in vertical, Horizontal and Reverse construction.
- Operation Theatre modules.
- Bio-safety cabinets.
- Inter-locking pass boxes (both Magnetic and Mechanical).
- Dust collection systems with exhaust hoods.
- Housing boxes for HEPA filters.
- Airflow measuring systems (AMS)
- Interlocking...
