About Us

FLSmidth Customer Service Projects delivers all types of cement plant upgrades and modifications at existing cement plant facilities. In the heart of the innovative solutions lies an emphasis on collaboration. Whether an upgrade involves just one piece of equipment or a complete overhaul of a production line, a close relationship with the customer is essential for success.

This kind of collaboration, built upon over many years, can clearly be seen at work at Titan America - Pennsuco Plant in Florida. At Pennsuco, the relationship with FLSmidth began in 2005 with an engineering study to improve operations at the plant. FLSmidth worked closely with Guillermo Haberer, Maintenance Manager at the time, and one of the results featured the first Air Blast Controlled (ABC) cooler inlet on the US market, installed to improve the original Controlled Impact Section and setting the model for future retrofits. "The ABC project upgrade was a significant improvement for plant operations and maintenance, "explains Guillermo Haberer, "Collaborating with FLSmidth has resulted in great benefits for us".

CRUSHING

- EV Hammer Impact Crusher
- EV Crusher Retrofit
- MHC Twin Shaft Mixers
- Raptor Cone Crushers
Grinding

Products & Services

- Raw Mill
- Coal Mill
- Split Seal
- Unidan Ball Mill
GAS ANALYSIS

Kiln Inlet Gas Analysis For A Competitive Edge

Calciner Gas Analysis

Coal Mill Gas Analysis

Preheater Outlet Gas Analysis
PYROPROCESSING

- ROTAX-2 Rotary Kiln
- Combustion Device
- Burner
- Heat Exchanger For Gas Cooling
AIR POLLUTION CONTROL

- AFT Filter Bags
- Fabric Filters
- Electrostatic Precipitators
- Hybrid Filters
PACKING AND DISPATCH

- Ventomatic Flying Fork-Lift
- Automatic Truck Loaders
- GE P Air Packer
- Palletizers
OTHER SERVICES:

- Crushers Machines
- Hydraulic Roller Press
- Process Gas Analyzers
- Gas Cooling Tower
OTHER SERVICES:

Gas Suspension Absorbers

Truck And Wagon Unloading Machinery

Electrical & Automation

Nuisance Dust Collectors
| Nature of Business | Service Provider |
