We are a leading manufacturer, supplier, exporter and trader of Hydraulic Machinery, Aeronautical Laboratory Equipment, R&D Laboratory Equipment, Pneumatic Laboratory Equipment, Design Lab Equipment & many more.
About Us

Flow & Force Engineers came into being in the year 1992 and carved a niche as the leading manufacturer, supplier, trader and exporter of the wide range of Fluid Laboratory Equipment, Hydraulic Machinery, Aeronautical Laboratory Equipment, Pneumatic Laboratory Equipment, Design Lab Equipment, Energy Conversion Lab Equipment & many more. We export our product to Gulf Countries. We make use of high grade material in making of our range and ensure that the production is carried out as per the prescribed norms and standards. Sturdiness and durability is given utmost importance and efforts are made by us to make our range flawless. Technology used in production is upgraded after regular interval, so that technically advanced range is delivered in the market. Mr. SV Shivanna, Proprietor of the firm is the person, who always stood up with the team and work tirelessly to ensure that targets are achieved timely. He knows what steps are to be taken to ensure that better and desirable results are achieved. Staff having excellent industrial experience and practical knowledge, is supporting and helping to meet targets timely. Engineers, technicians, quality analysts, R&D personnel and other skilled and semi-skilled staff have enabled to keep pace with the ever-changing business scenario. Besides, we train our professionals and keep them updated of all changes taking place in industry, so...

FLUID LABORATORY EQUIPMENT

Pelton Wheel Turbine Test Rig

Impact of Jet on Vane

Francis Turbine

Air Compressor Test Rig
ENERGY CONVERSION LAB EQUIPMENT

- Diesel Engine Test Rig
- Bomb Calorimeter
- 2-Stroke Diesel Engine
- 4-Stroke Diesel Engine
HEAT TRANSFER LABORATORY EQUIPMENT

Air Conditioning Test Rig

Boiling of Liquid and Condensation

Emissivity Measurement Apparatus

Insulating Powder Apparatus
R&D LABORATORY EQUIPMENT

Cyclone Separator

Fixed Bed Bioreactor

Fixed Bed Bioreactor

Ground Water Model Laboratory Equipment
HYDRAULIC MACHINERY

Hydraulic Flume
Bernoulli's Apparatus
Multi Purpose Teaching Flume
Calibration of Collecting Tank
AERONAUTICAL LABORATORY EQUIPMENT

Forced Convection Apparatus  
Beam Test Setup

Nozzle Flow Measurement Instrument  
Propeller Test Rig
DESIGN LAB EQUIPMENT

Photoelastic Bench

Journal Bearing Tester

Motorized Gyroscope Apparatus

Static and Dynamic Balancing Apparatus
Our Product Range

Pneumatic Laboratory Equipment

Pneumatic Trainer kit

Pneumatic Trainer kit

Pneumatic Trainer kit
OTHER PRODUCTS:

Multistage Centrifugal Pump Test Rig

Multi Cylinder Diesel Engine Test Rig

Parallel and Counter Heat Exchanger

Hydraulic Bench
OTHER PRODUCTS:

- Dead Weight Pressure Gauge Tester
- Wind Tunnel Test Rig
- Universal Governor Apparatus
