About Us

Founded in 2008 by people with vast professional and entrepreneurial experience, The Bowl House has grown into a prestigious brand.

The "Bowl" representation is to depict an image, whether an illusion or factual, that clearly symbolizes the art of South East and East Asian Cooking. The richness and diversity of Eastern culinary science merits such an iconic depiction and The Bowl House prides itself for providing these wide range of mouthwatering recipes as part of its bowl offerings. The Bowl House thanks all its revered guests for sharing The Dream and for the continuous support of the brand and the slowly realizing aspirations. The Bowl House wishes all its guests the best quality of life and to continuously be 'bowled over'.
