About Us

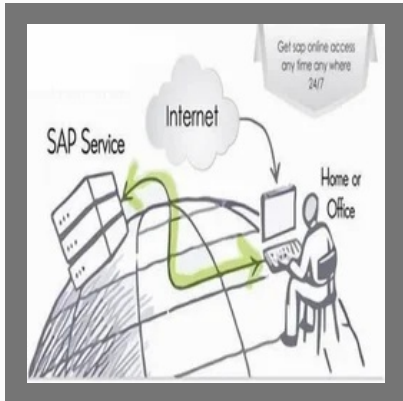

G1 IT Services was established in the year **2011**. We are the eminent **Manufacturer** of **G1 Thin Client, G1 Firewall, Peripherals Devices, G1 Desktop PC**, and also Provide **IT Services** etc. We are into thin client manufacturers; we can effectively guide you on server sizing, base operating system requirements and the type of thin clients that will meet your needs not only today but we will well serve your organization for years. Your success has come from our great team of experienced people, who are serious about using our thin client technology and service to run businesses better. We understand that the role of IT is to help you achieve your business objectives. Let us know your business requirements, and we'll get you the IT systems and support you need to succeed. We are technology and vendor independent and use all the major branded thin clients, which mean you know you're getting the solution you need, not the one we're selling.

In the broad fields of Information Technology, we provide a wide scope of counsel and services to companies at all levels of development. We offer a wide range of services in IT, which is covering almost all the fields in the best possible way. To be the best we know what and how to present beautifully the working of the client's need and their advantages be highlighted. We act in accordance with the Industry certified...
