About Us

We coordinate the technology in your life into complete, brilliant experiences interactions that fit your lifestyle and are easy for your family to enjoy. With one touch, dim the lights, play music, turn up the heat, lock the doors and arm the security system. Or, have your house respond to your schedule and needs without touching anything at all. Control and Monitor remotely using Smart phone (Android, Apple, Symbian), Smart Watch, Tablet and Computer by Voice Control, Gestures, Location, Profile, Environmental Condition, Time Zone, etc.

The home automation system helps you easily, comfortably control your heating, ventilation, and air conditioning systems as well as lights, curtains, and many other devices around your home.

- Voice + Gesture + Time + Location + Condition + Customized Controls
- Mobile + Tablet + Remote (controller)
- Increased comfort
- Improving Security
- Enhancing convenience
- More economical
- Instant alerts greatly increase security
- Backup emergency control
- It can be combined with local control to give higher flexibility.

We design your system, install it, integrate all the technologies, program it to work simply and efficiently, and provide you with ongoing support
