## About Us

The GAC Group is committed to ensuring customers' needs for quality shipping, logistics and marine services are understood and met. And with over 10,000 professionals working around the clock at more than 300 offices in over 40 countries, we deliver on that promise. Since the first GAC operation was set up in Kuwait by Swedish entrepreneur Bengt Lindwall in 1956, the Group has evolved into the widely-recognised global provider of integrated shipping, logistics, marine and related services we are today. GAC's globalisation strategy is to use steady and consistent geographical expansion, achieved through organic / opportunistic growth, joint ventures, partnerships and acquisitions. GAC is local in action and global in attitude. The value of human dignity is one of the cornerstones of GAC's operating philosophy. We value long-term relationships - with business partners, customers, suppliers and our own staff. Wherever you go, you will find GAC people striving for excellence in everything they do, driven by a sense of urgency and a desire to meet all their customers' every service need. That combination of the personal touch with fierce professional pride is our corporate signature.
