About Us

Galaxy Weblinks is a technology company, with expertise in developing custom web & mobile applications for businesses of all sizes and industries. We are passionate about solving real life business problems by developing creative solutions. Many solutions work & several don't but we love what we do and so we keep doing it

We believe that the future belongs to those who prioritize innovation in their business practices. We are looking into the digital horizon and we know where the opportunities will be! Throughout the last decade, we have transformed many businesses into vibrant portals, vortals and profit gateways.

We help our clients leverage their traditional strengths to take full advantage of e-business by capitalizing on the growth and productivity that can be achieved by integrating many companies into common marketplaces. We continuously endeavor to exceed customer expectations in all engagements with an optimal mix of technical strength and execution capability, while ensuring high employee morale.
