About Us

Gavari art form seems to be on the verge of extinction and much effort is needed to culturally revive and disseminate it down the mainstream. Gavari is predominantly a religious phenomenon, so it is an arduous task to record each and every event related to Gavari. Our team, under the banner of Tuneer Films Udaipur has completed the task and has produced its dramatic performances as a tele-serial to let the world know about Gavari. Our associate Harihar Lok kala Sansthan is also engaged in research work to produce many more documentaries on tribal culture.
