About Us

Established in the year **1985**, we, "**Gee Cee Chemicals**", are listed at the apex amidst the list of trustworthy manufacturers, suppliers and exporters of a wide variety of **Brown Factice, Nitrex Factice, Softex Factice, White Factice, Softice Factice, Sona Factice** and **Turkey Red Oil** for the clients. At our base, each chemical is processed under the guidance of dexterous professionals using high-grade ingredients and other composites, ensuring its complete purity. Furthermore, our team members ensure that these chemicals comply with the international industry standards, thus assuring their rich effectiveness. Owing to their features like accurate composition, effective usage, purity, longer shelf life, precise pH value, non-toxicity and Eco-friendliness, these chemicals are widely preferred by the clients in rubber processing industry. With our main focus towards organized execution of all the business activities, we have developed a state-of-the-art processing base. This entire processing setup is manned and handled by our knowledgeable professionals, who ensure that each activity is carried out in a systematic and detailed manner, avoiding any kind of chaos or hassle in the business endeavors. Moreover, it is the duty of our team members to ensure that the chemicals available in our catalog are tested on strict parameters, thus acting effectively in the user application. With our quality-proven approach, we have been able to...
