About Us

Established in the year 2009, at Nagpur (Maharashtra, India), we, “R & G Softtech Pvt. Ltd.,” are renowned Manufacturer, Trader and Supplier of a superior quality array of Touch Kiosk, Security System, Fire Alarm System, Currency Counting Machine, Loose Note Counting Machine, Fake Note Detector Machine, Currency Sorting Machine and Office Automation Product, etc. Our experienced procuring agents source these products from only reliable vendors of the industry in compliance with international quality standards. These products are designed and manufactured using quality tested components and advanced technology under the guidance of skilled professionals. As per the different requirements of our clients, we offer these products in various designs and technical specifications. These products are widely demanded in the industry and are available at the most reasonable rates for our respected clients.

We store our products in a systematic order and as per their labelling. For this, we have developed a robust warehousing facility. It is well-maintained and is kept free from dampness, direct sunlight and rodent attacks. It is well guarded and is installed with fire safety equipment and tools. Being well-connected to major roads, it assists in ensuring timely dispatch of our products. Apart from that, we have established robust marketing and sales, quality testing, customer care, accounting and finance, administrative and varied other departments. Before...
