## About Us

The Gio e-retailers does not provide any financial services. It is very important for the participants of The Gio e-retailers to know that this is only a social network financial pyramid and whoever participant in it , would do so solely for ideological reasons. By helping each other we can make a new society brighter and cleaner one. Start helping today and get help when you needed. Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma - which is living with the results of other people's thinking. Don't let the noise of others' opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition.

We are not a business or a profitable organization. We are a community of likeminded individuals that help to one another, and constantly invite others to take part in this philanthropic activity , to help ease stress of financial hardship that many people are facing today. Our members come from many different walks of life , but are united in the belief that global poverty is one of the most important problems in the world today. And in the desire to do something about it this concept introduced.

There are not any rules. The only rule: there are no rules at all ! Even if you follow all the instructions precisely, you can still lose all your money and not get help in our community from other participants. You can be not paid for any good reason or explanation.

We do...
