Journal of Global Biosciences (JGB) is an open access online journal that provides rapid publication of articles in all areas of basic biology, molecular biology, genetics, plant and animal physiology.
About Us

Journal of Global Biosciences (JGB) is an open access online journal that provides rapid publication of articles in all areas of basic biology, molecular biology, genetics, plant and animal physiology, ecology, microbiology, biochemistry and plant and animal biotechnology.

Instructions for submitting article in Journal of Global Biosciences (JGB):

Authors Submit article and queries to: submit@mutagens.co.in or researchsubmission@hotmail.com

We aims at receiving, processing, distributing, providing, networking of research data, inventions, findings in the subject areas Botany, Zoology, Genetics, Molecular Biology, Cell Biology, Biochemistry, Microbiology, Plant and Animal Biotechnology, Agro Chemistry and Applied Biosciences to all the destinations for faster connectivity to respective research, taking due care of speed and pace of knowledge generation, coping with the time. Faster communication, processing, display, codification, abstracting and publishing, coping with the time. Journals are online for Open Access, easy accessibility to everyone, everywhere & at all time. It has saved the costs of printing, publishing, mailing and hence the journals easily available to scientific community.
