

Globion India Private Limited

<https://www.indiamart.com/globion-india-limited/>

Globion India Private Limited is one of the largest manufacturer of poultry vaccines and feed products from India.

About Us

Incorporated in October 2006, Globion is located in Hyderabad- a city of Poultry Strategic importance at genome valley, Biotech Park, Phase III. Globion intends to produce world class poultry vaccines by complying to cGMP, ISO 9001, ISO 14001 and OHSAS 18001 standards. The biotech industry has witnessed a steep growth in past decades. The accelerated growth was witnessed not in agriculture production, but also in bio-pharmaceutical production. This has transformed conventional methods of medication and vaccination to a new era with many novel products and its applications. Globion has commissioned a state-of-the-art Vaccine manufacturing facility complying with GMP standards. Globion produces a basket of Poultry Vaccines – Live and Inactivated --for Breeders, Layers and Broilers under . The products are marketed under the brand “GlobiVac”. Poultry Industry globally has become the most formidable source of Food Basket ensuring Food Security of World . However globalization of this industry has also thrown challenges to each major Poultry Producing Country with respect to control emerging and re emerging diseases. One of the best tool to offer this and ensuring Food safety is Research and Solution driven vaccination and disease control. Globion recognizes the need of Research and Development and is committed to invest in this segment heavily. Its R & D unit has already received recognition by Department of Science and Industrial Research, Ministry of...
