About Us

Unprecedented huge construction activities are going on throughout the length and breadth of the country due to boom in infrastructure sector. Construction activities in the garden city of Bangalore have created record in the history due to the growth of information Technology and Bio-Technology, roads and flyover projects, introduction of metro rail project in Bangalore, multi-storied residential and shopping complexes in the private sector.

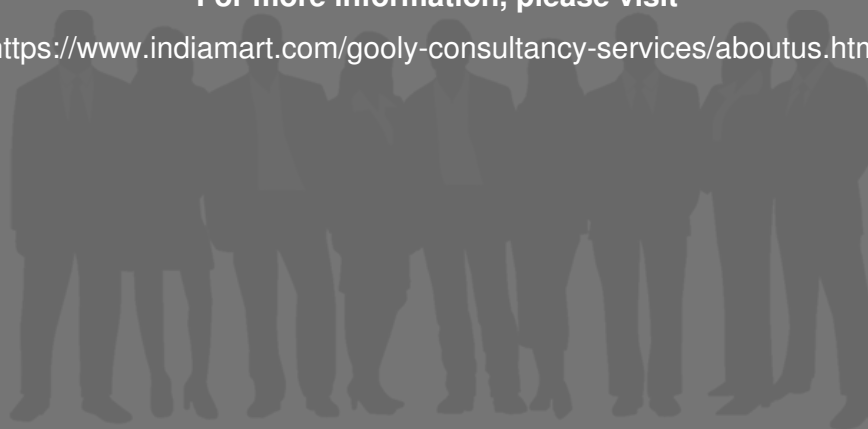

It is very necessary that quality of these projects is given utmost care in the overall interest of the nation. Testing of materials during construction is the mandatory requirement to achieve better quality.

Barring few recognized testing laboratories in the city of Bangalore, there are not much of facilities available at present to undertake testing of civil engineering materials as per relevant BIS codes and procedures.

It is under this context, “**GOOLY CONSULTANCY SERVICES**” has come forward to establish high quality testing laboratory with all modern and sophisticated testing equipments. The laboratory is not only fully equipped with machineries but also it is managed by the experts in the field of civil engineering who have more than 30 years of rich experience in the construction sector. Fully trained technicians and operators are available for testing of materials strictly as per relevant BIS codes and as per the requirement of the client organisations at...
