About Us

Established in 1995, Greenback Forex Services Pvt. Ltd. has today grown into one of the country's most renowned consultants in the area of currency and interest rate risk management and international finance. By joining hands and pledging commitments with India's leading conglomerates, our customized services have earned us heartfelt respect and recognition. After all, every piece of advice we give, every decision we help you to take, every idea or product we implement at your end, is targeted at achieving 100% optimality - both cost minimalization as well as revenue maximization. Whether it's procuring finances, managing risks, fine tuning your requirements or seeing a transaction through, we believe in adding value at every stage. And it is this conviction that takes us under client's skin to give him a 'complete solution' that is not only need based and innovative but also relevant, executable, profitable and safe. Suffice to say, in an age ruled by dynamism, dedication and upbeat financial milestones, Greenback has taken an oath to be an icon of trust and reliability.
