## About Us

With 8 years of experience in this domain, we have got expertise in trading and supplying an extensive range of Medicines and Chemicals and providing the Pharmaceutical related services to the world wide pharmaceutical manufacturers. Till date we were exporting our products and providing the pharmaceutical related services to mainly **Africa, Latin America and some Gulf countries**. After establishing our good base in the mentioned market in mid 2011 we decided to launch our services in to Russia and other CIS countries including Ukraine and Belarus. We are very closely associated with around 50 pharmaceutical manufacturing plants that manufacturers API ( Bulk Drugs) and Formulation in India and China. Out of 50 Manufacturing plants we are having exclusively distribution rights for around 20 large Pharmaceutical bulk drugs and finished form manufacturers. To support this business we have got offices in China, Russia and USA were highly skilled professional work round the clock. In Pharmaceutical segment we have two areas of business.

1. Trading of Pharmaceutical finished form, API ( Active Pharmaceutical ingredient) bulk drugs and excepients.
2. Pharmaceutical Services. To help our overseas manufacturers we have recently started providing following services.
  - New Product development technology transfers to our partner manufacturers of pharmaceutical products.
  - Develop dossiers and DMF for all new products API and...
